

# Mayor Davison to Address Public Meeting in Pass

## Hockey Summary for Week

### Coleman Midgets Advance in Provincial Playoffs

Coleman Midgets kept local hockey interest alive Monday night when they advanced to the second round of the provincial playoffs. They finally eliminated Roland Pinkney's charges by 7-5 in overtime. The series went three games before a decision could be reached. Originally intended to be a two-game total goals series, the youngsters were so evenly matched that on the first two occasions they tied 5-5 and 4-4.

On Monday night Coleman held a 5-2 lead going into the third period, but failed to hold it before the aggressive play of the Blairmore sextet. Regulation time found the teams deadlocked at 5-5. In the overtime Coleman rapped home two goals to clinch the decision and advance into the playoffs.

Coleman snipers were Hudz 3, Keats 2, Slugg and DeLuca. Assists were liberally spread around the rest of the team. Blairmore scored through Sekina 2, Coney 2 and Cato. Coached by "Duke" Keats, the locals will meet Medicine Hat Midgets in the next round.

#### PEE WEE HOCKEY

Sunday's results:

Elks 4, Pattinson's 0.  
Legion 1, Polish 1.  
Italians 2, Polish 0.  
Legion 4, Pattinson's 0.

Final league standing:

|             | W | L | T | Ga. | Gr. | P. |
|-------------|---|---|---|-----|-----|----|
| Italians    | 4 | 0 | 0 | 9   | 2   | 8  |
| Elks        | 3 | 1 | 0 | 12  | 3   | 6  |
| Legion      | 1 | 2 | 1 | 7   | 8   | 3  |
| Pattinson's | 1 | 3 | 0 | 13  | 2   | 2  |
| Polish      | 0 | 3 | 1 | 4   | 8   | 1  |

Playoffs for Red and White Trophy

Polish 4, Legion 1.

On Sunday Mike Osinchuk's "Super Pee-Wees" defeated Roy McLeod's "Super Pee-Wees" 6-1 in what proved to be an introduction to the public of the farm team system's players. The youngsters in their first attempt drew plenty of applause and their coaches are really deserving of praise in their efforts to help foster sport.

The Shamrocks defeated Slovaks 3-0 in an exhibition Midget game.

#### JUNIORS TROUNCED AT FERNIE 14 TO 3

Minus five regulars, Coleman Juniors were given their worst shelling of the season when the fast skating Fernie Juniors slapped a merciless 14-3 trouncing on them. The win practically clinched first place for the B.C. youngsters.

#### BLAIRMORE JUVENILES DEFEAT NATAL 7-2

Blairmore Juveniles continued their quest for provincial juvenile supremacy on Saturday night at the local arena when they trounced the Natal Juveniles 7-2, winning the round 9-3. Blairmore had previously won the first game 2-1.

Kanik paced the winners with five goals, Allan and Gierney scoring the others. Calla and Thomson scored for the B.C. youngsters.

#### PEE-WEE SEMI-FINALS

Elks 2, Pattinson's 0; Italians 5, Polish 1. Final will be played next Sunday at 8 p.m.

At 2 p.m., Sunday, the super-pee-wees will again give an exhibition game.

#### WHEREABOUTS OF WM.

J. HICKEY ENQUIRED FOR

In the department for missing relatives in a recent issue of the Family Herald and Weekly Star, enquiry was made for William J. Hickey, who was born at River Head, Harbor Grace, Newfoundland, about 70 years ago. He was heard from at Coleman, Alberta, but is thought to have been an early resident of Moyle and at one time employed at the St. Eugene mine.—Cranbrook Courier.

### GERMAN BOMBER SHOT DOWN IN FRANCE

British War Office Photo-Crown Copyright reserved

Courtesy Canadian Pacific

British and French Air Forces on the Western Front, working in close co-operation, are carrying out magnificent work. In this photograph the fuselage of a big German plane is seen being towed through the streets of a French town, a trophy which will afford much valuable information to the Allies.

### Red Cross Branch Regular Meeting

Will Hold Dance on May 23 to Raise Additional Funds for War Work Committee

The regular meeting of the Red Cross Society was held in the council chamber on Monday evening, Wilfrid Dutil presiding, with Vice-President Mrs. W. L. Rippon, Mrs. A. E. Graham, secretary, Norman A. MacAlulay, treasurer, and several members of the general committee present.

The financial report was submitted by the treasurer, of which a copy will be published for the information of the public. Various methods were discussed for raising money to buy supplies for the War Work committee, and it was decided to put on a big dance on May 23 if arrangements can be made for orchestra, hall and other details. A committee was appointed by the president to handle this. Tickets will be 50c each, and it is urged that everyone purchase a ticket to help the work.

Mrs. Rippon, in charge of the War Work committee, read a list of the articles made by her workers, and reported that more material was needed. The committee meets every Tuesday and Friday afternoon in the council chamber, where work is distributed and parcels made up for delivery to provincial headquarters.

The annual meeting of the provincial division will be held in the Palliser hotel, Calgary, on March 8, at 7.30 p.m., for election of officers and other business.

Present at Monday's meeting in addition to the officers named were T. McCloy, M. Opulski, H. T. Halliwell, Mrs. K. Johnston, Mrs. Chuchla, Mrs. H. Claxton.

#### E. D. BATTRUM HONORED

E. D. Battrum, well known as auditor of the town accounts for many years, has been honored by the provincial Boy Scouts' Association, being one of four who were presented with special medals in recognition of outstanding service to the movement in Alberta. Among his achievements was the part he took in the visit of the Chief Scout, Lord Baden-Powell, about five years ago, when he and Lady Powell visited Calgary for the provincial jamboree. About 3,000 Scouts and Girl Guides were taken to Calgary in special trains from various parts of the province, and to Mr. Battrum was given the credit for the excellent carrying out of the arrangements without a hitch.

### SOUTH AFRICAN VETERANS TO MEET

The annual meeting and election of officers of the South African Veterans' Association will be held in the Elks Hall, Calgary, on Friday, March 1, at 8 p.m. The 40th anniversary of the Battle of Paardeberg, in which the Canadian troops took a prominent part, will be celebrated. It was at this battle that General Cronje and 4,000 Boers were forced to surrender, and they were later interned on the Island of St. Helena till the close of the war.

### Pee-Wee Executive Expresses Thanks

With the hockey season drawing to a close we wish to thank all who have generously supported the Pee-Wee hockey league financially and otherwise. Each sponsor has offered full support and the various coaches have been of great assistance in an executive capacity, to the personnel of their teams and keeping schedules running smoothly. The Coleman senior hockey club have been very generous in our use of their rink, and made possible the continued progress of the teams.

The Gate cup final will be played at the end of this week. The Midget X-1's meet Medicine Hat, last year's provincial champions, in the second round playoff. It is some years since the Coleman youngsters went over provincial honors, and it will only be with the wholehearted support of the community that the boys can continue. The X-1's are a good team. Looking over the other pee-wees, there is a wealth of material coming up for next year.

The Midgets are now out with tickets for the playoff games and we trust you will all get behind them and make a special effort to have at least 500 in attendance for the next game. Comments on previous games have been very satisfactory, and supporters are pleased with the fast and good brand of hockey provided. Thank you, G. C. Nurcombe, president Pee-Wee Hockey League.

### Canadians Lose Two, Win One on Road Trip

Trounce Drumheller Miners in Last Game of Season. Lose to Olds and Calgary

Canadians returned Tuesday evening from their last road trip of the season, which saw them drop games to Olds and Calgary and win over Miners at Drumheller.

At Olds both teams battled on even terms until four minutes from time, when Olds managed to net the rubber twice to take a much needed 4-2 win. The victory kept alive the hopes of the Elks for a play-off spot. Rodinsky scored both Coleman markers. At Calgary, it was a hectic game, with major penalties being handed out to several players. Dan Sprout received his first major of the season and while off the ice Calgary scored three goals past Wolf. Calgary scored three goals in the first, four in the second, and two in the third; Coleman scoring in the first and second periods. Final score 9-2.

At Drumheller, Canadians managed to take the measure of the Miners. Gruhn scored four goals, Luney one goal and four assists, and Sprout, Sturk, Dunn and Roughhead scored the others. Since both teams have long lost any chance of making the playoffs, there was nothing at stake in the wide-open game.

### Local News

On Sunday afternoon a meeting was held in the community hall under the auspices of the United Mine Workers of America, which was addressed by R. J. Livett, president of District 18.

Calgary Normal School society put on a half-hour radio broadcast on Wednesday night over C.F.N. and those from Coleman taking part were Tom Goldring, Mary Graham and Winnifred McIntyre.

### Boy Scouts and Cubs Visited by Executive

Local Troop, Sponsored by Coleman Elks, Hear Interesting Talk on Value of Scouting

Mr. Johnson, executive secretary of the Boy Scouts of Southern Alberta, accompanied by Harold Wetherup, assistant scoutmaster of Macleod troop, inspected the Cubs and Scouts on Wednesday evening in St. Alban's parish hall. The Red, Grey and Yellow groups of Cubs are under Mrs. F. H. Graham, Miss Mary Hoyle and Mrs. George Roper. The Boy Scouts are sponsored by Coleman Elks Lodge, and the members present were Wilfrid Dutil, George A. Brown, W. E. Read, John Smith and A. Webster.

Mr. Johnson spent an hour with the Cubs, following which almost two hours was taken up with examining the Scouts, in which he related several interesting incidents showing the value of instruction which a Boy Scout receives, and the worthwhile service they can render in emergencies. His talk proved interesting to the Scouts and the sponsoring committee.

### Coleman Girl Guides Interesting Notes

Although the hockey season is not very conducive to good attendance, the Guides have been holding their meetings regularly each Monday. Since early January, when Mrs. Campbell was called away, the Second Company has been meeting in St. Alban's hall with the members of the First Company.

Guide work has not progressed very rapidly since the new year, but work along other lines has proved satisfactory. Both companies have made surgical dressings (for local use) and many of the girls have taken wool to do Red Cross knitting.

We have had two sweaters and one pair of socks finished, and have several scarfs and wristlets, and some socks and sweaters well under way.

The church parade to St. Alban's church on Sunday, Feb. 25, was well attended by the Guides. For the first time the Brownies were not out in their usual numbers. The Cubs also attended the morning service, honoring the birthdays of the Chief Scout and the Chief Guide. During the service the Union Jack and company colors for both the groups were presented; the Guides' by Dorothy Cooke and Frances Short, and the Cubs' by Clayton Rose and George Dibble.

The First Company has two recruits just now and we expect to have an enrolment shortly. Late in December Miss Joy Emmerson was enrolled as a Guide and is acting lieutenant for the First Company.

### Local News

Jack Simpson, who is employed in the logging camps, visited his parents at Coal Creek last week.

The Journal acknowledges from old friends, Mr. and Mrs. C. J. Devine, of Cadomin, renewal subscription to The Journal for another year, and reciprocates their good wishes.

Miss Greta Cawsey, daughter of Sgt. and Mrs. J. A. Cawsey, left by bus on Wednesday forenoon for Edmonton, where she enters upon a course in nursing. A large number of Miss Cawsey's girl friends were at the depot to bid her farewell and good luck.—Pincher Creek Echo.

Ship by rail—miners dig coal, not gasoline!

### Next Thursday at Blairmore for C. J. Tompkins

Monster Rally by Independent Candidates' Supporters in Columbus Hall; M. Porter, K.C., Accompanies Mayor Davison.

Mayor Andrew Davison, Calgary's widely known chief magistrate, and himself an Independent candidate against the forces of Aherbartsim in Alberta, has consented to take time from his own campaign to come to the Crows Nest Pass on Thursday next to address a public meeting in Columbus hall, Blairmore, at 8 p.m. He will be accompanied by M. M. Porter, K.C., a forceful speaker in behalf of the Independent candidates.

The meeting is open to all, and a packed house is anticipated, already many from the eastern end of Pincher Creek-Crows Nest constituency having expressed their intention of coming. Cars will be provided from the various towns for those not having transportation, and Coleman people may leave their names at the Independent committee room on Main street.

### A STRIKING CONTRAST—BRITISH vs. GERMAN

A New York correspondent sends some verses which appeared in the "New York Sun". We reprint them, not so much for any poetic merit they possess as for the indication they give of the side on which American sympathies lie in the European War: The Rawalpindi and the Graf Spee The Rawalpindi, far outlasted, Fought 'til she went below; She battled the bitter end, Returning blow for blow. The Spee, when first she faced slight odds, Turned tail and dodged the strife, And, when the going seemed too tough, Lay down and took her life.

The Rawalpindi, facing odds, Stood firm and shot it out; Her doom was certain from the start . . . But still her heart was stout. The Spee, she threw her weight around

When from all danger free, But when it meant a bitter fight She finched and said, "Not me!"

III. The Rawalpindi rests below The surface of the seas, But long her gallant fight will live In human memories; The Spee, a charred and twisted hulk,

Rests where the eyes of all Can view her in her black disgrace And sense her sickly fall. —The Journal is indebted to Maurice W. Cooke for sending in the above, which was taken from a Scottish newspaper.

### HONORED ON 35th WEDDING ANNIVERSARY

Mr. and Mrs. Tom Rypien were pleasantly surprised on Sunday, Feb. 25, when they were honored at their home in East Coleman by their family and friends, on the occasion of their 35th wedding anniversary.

They were recipients of a beautiful silver tea service from their Polish friends and received a handsome lamp from their family. About 50 persons were present and a pleasant evening was spent.

### TO MAKE ADVERTISING EFFECTIVE

in promoting increased sales, it must be accompanied by reader interest. That is why The Journal is the most effective local advertising medium, and to sell you must tell through its columns.

### Modern Hospitalization

During the past few years a great deal of publicity has been given to the extraordinary advances which have been made in the field of medicine and surgery. Magazines and newspapers have devoted, and still are devoting, a great deal of space to new discoveries in the warfare against disease and death, to new methods and agents of immunization against communicable ailments, and to new anaesthetics which are going far to-day to rob operations of their former terrors, and to new medicines and treatments that to-day are curing diseases which a few years ago spelled almost certain death.

Not so much, however, is being said or written of the remarkable progress which has been made in the field of hospitalization and hospital practice in the past few years, although the hospitals of the country are keeping step with the advances made in medicine, surgery and anaesthesia.

It is not a far cry back to the days when the average individual shunned the hospital as a place to be avoided at all costs, when people begged the doctors not to send them to a hospital for treatment; when the kitchen table was preferred, at least for minor operations, to the facilities afforded by the operating rooms in the hospitals; when the risks of infection incurred by such treatments in the home were regarded with less fear than the unknown experiences, and often wrongly anticipated experiences, which were expected in the hospitals.

To whatever extent such fears and alarms at the prospects of a sojourn in the hospital may or may not have been warranted in the past, there is certainly no need for them to-day. There is no justification for dread at the necessity for making a stay in the modern hospital, such as is to be found ministering to the sick and injured, not only in the larger centres of population, but even in many of the smaller towns.

#### The Patient First

The care and attention that is given the patient in the up-to-date hospital is beyond reproach. The service is invariably excellent. The rigid precautions taken to prevent infection in the operating room and the wards could scarcely be improved upon, and cross-infection to-day is almost unknown in the isolation hospitals. Every precaution is taken to ensure quietude for the patient for whom quiet is essential for speedy recovery, and patients are treated with sympathy by the entire staff, including supervisors, nurses, probationers, internes, orderlies and maids.

There are, of course, at all times, in the hospitals, patients who are fractious and cantankerous. This, however, is to be expected, when it is remembered that a sick person is not a normal person, but even these cases are sympathetically treated and their whims and pettinesses are entered to as far as is reasonably possible and to the extent that it may not be injurious for them.

"The patient is the first consideration, and must at all times be given the utmost consideration." That appears to be the slogan in the well run hospitals of to-day, and it might be added in parentheses, most of the hospitals in Western Canada are being operated on a highly efficient basis.

One of the many phases of hospital administration which has shown marked improvement in recent years is the dietary. When patients have reached that stage in their recovery from sickness or an operation that they may be safely put on full diet, they find their meal trays well laden with well-cooked foods in great variety, served in tempting form and in ample quantity. The preparation of these meals is under the guidance of an expert dietitian who balances the calories and measures out the vitamins essential to good nourishment and the needs of the patient.

#### Chances Improved

Much of this improvement in hospital technique as well as in equipment and standard in Western Canada is due to the action of the administrative boards in subjecting their institutions to annual inspection and rating of the American College of Surgeons. When a few of the larger hospitals adopted this policy some years ago it was not long before the others followed suit and the large percentage of Western Canadian hospitals that year in and year out are awarded the highest possible rating, speaks volumes for the earnestness with which the governing bodies, the medical and lay staffs accept recommendations and adopt improvements as rapidly as circumstances and finances permit.

And so the day is past when the hospital need be shunned by the sick and the injured. Rather, it is an institution to be courted by those who have need of its services. Indeed, the chances of a speedy recovery from illness or accident are much greater to-day in the Western Canadian hospital than a few years ago and much greater than in the home.

Thomas Jefferson, third president of the United States, smuggled the first rice seed from Italy to South Carolina, and thus initiated the south's rice-growing industry.

#### A Very Old Skeleton

Elephant's Bones Indicate It Weighed Over Eight Tons

The skeleton of a prehistoric elephant nearly 16 feet long and 12 feet tall, has been put on exhibition in the Paleontological Museum in Odessa, Russia. It is estimated that the monster lived 300,000 years ago and weighed at least eight tons. The skeleton was found recently standing upright in the sands of the Khajibev estuary on the Black Sea coast.

Three patrons are served by the smallest telephone company in the world. The company operates a line in Shasta county, California.

The war would seem to have added one permanent figure of speech to our language, namely, to fight like a Finn.

A little town in the province of Limburg, Holland, is called America.

United States plans to build 77 additional warships. 2348

#### Had Same Honor Twice

Ottawa Man Helped Draw Gun Carriage At Notable Funerals  
Thirty-nine years ago as a young naval rating, Lieut.-Commander E. Haines, now at naval headquarters in Ottawa, helped man the gun carriage carrying the body of Queen Victoria in the funeral procession after the horses broke away from the carriage.

He was second in command of the 60 ratings of the Royal Canadian Naval Volunteer Reserve who pulled the naval gun carriage taking Lord Tweedsmuir's body from St. Andrew's Presbyterian church to the Union Station the last act of the state funeral. The unit was under Commander J. W. R. Roy of the Royal Canadian Navy.

Lieut.-Commander Haines was one of the 100 naval ratings in the Queen Victoria funeral procession who were ordered, on King Edward VII's approval, to pull the gun carriage from Windsor Station to St. George's chapel and then to Windsor Castle after the accident.

Frightened by the drums as the gun carriage was being pulled away from Windsor Station, the horses leaped forward, breaking the traces and leading to considerable confusion. The naval ratings went into action a few minutes later, however, and manned the gun carriage successfully.

#### Diet On Submarine

Have Delicacies Not Supplied To Men On Surface Ships

A dish of tinned prawns for supper on the bottom of the Heligoland Light is one of the oddities of naval warfare. Visiting for the crews of the submarine service includes a large number of delicacies which are not in the messing of surface ships.

The reason is health. The men get no normal exercise for the 17 or more days they are on patrol. Many of them do not see the sky the whole time. Consequently they lose their appetite, and the provision of delicacies is intended to tempt them to eat. Moreover, their diet for the whole time they are away is carefully drawn up to give balanced nourishment.

The victualling department at the Admiralty has another wartime problem—the provision of stores for ships working far from the normal base of supply. There has also been the question of dispersal of stocks to prevent total interference with the Navy's rations in the event of severe air attack. A number of supply ships have been taken over, fitted with refrigerating plant, to serve vessels in out-of-the-way places. Manchester Guardian.

#### SELECTED RECIPES

##### DIVINITY FUDGE

½ cup Bee Hive White Corn Syrup  
½ cup cold water  
2 cups white sugar  
2 egg whites  
1 teaspoon vanilla  
Few grains salt

Cook syrup, water and sugar together until it forms a firm ball in cold water. Beat egg whites with hot syrup. Add vanilla and beat until thick. Variations: broken walnut, dry cherries, chopped candied ginger, etc. Turn on buttered pan.

##### FRUIT SYMPHONY

1 package Lemon or Lime Jell-O  
1 cup hot water  
1 cup fruit juices and water  
Dash of salt  
2 cups diced grapefruit (sections free from membrane)  
½ cup diced orange (sections free from membrane)  
½ cup canned crushed pineapple. Dissolve Jell-O in hot water. Add fruit juices and water and salt. Chill. When slightly thickened, fold in fruit. Turn into individual molds. Chill until firm. Unmold. Serve plain or garnish with whipped cream and orange sections. Serves 8.

#### Popularity Is Increasing

Newspaper Holds First Place As Dependable Source Of Information

Statistics show that in Canada and the United States there are 41,800,000 newspapers sold every day. In the past five years there has been an increase in the daily circulation of newspapers of over 5,000,000. In the past 15 years, circulations have increased 26 per cent. The population in that period has increased only 17 per cent.

Newspapers continue to grow, despite the increase in other facilities for transmitting information, because experience has proved that the daily newspaper is the most dependable and complete source of news.

Thermometers need be marked no lower than 50 degrees F. in Honduras, they go, they'd be in reverse.

#### Fins Set Example

No People Ever Came Through Bitter Ordeal With Finer Record

The Finnish people, as well as the Finnish armies, have given a performance that entitles them to receive promptly, and not merely at the convenience of others, such help as the outside world is prepared to give them, whether that help takes the form of loans for "non-munitions", munitions themselves, volunteers or contributions for relief.

No people ever came through a bitter ordeal with a finer record. From the start they faced the fact that the longer their armies fought and the more damage they did to the prestige of the invader, the more terrible would be their punishment in defeat. They have not let that prospect rob them of their courage. They have not lost their fire or their self-restraint.

To the bravery of their own troops they have responded with quiet sacrifice. To the cheap taunts and the vicious slander of the Kremlin they have replied with dignity. To the outside world they have given an example of democracy as every democrat must hope to find it in the hour of his trial: resourceful, self-reliant, generous, determined. The example humbles those who are forced to wonder whether their own faith could meet this cruel test. — New York Times.

#### Vital As Heligoland

Island Of Sylt Is Germany's Important Naval Base

The London correspondent of the Ottawa Journal, says:

Everybody knew all about Heligoland, Germany's famous base in the last war. Nobody outside Service circles knew anything about Sylt when this war started; yet Sylt, Germany's biggest island outside the Baltic, is just as vital from a naval and air standpoint now as Heligoland was formerly.

Sylt is about 40 miles in extent, and is fitted up as a comprehensive air and naval base. Germany's mine-layers and bomb-carriers are launched from this island, which possesses A. A. defences, underground hangars, and is connected with the mainland by the Hindenburg Dam, constructed at the cost of many millions at a time when we were asked to sympathize with an impoverished Germany, quite unable to meet her financial obligations.

The importance of Sylt is recognized by our naval and air people. Its civilian population, numbering 6,000, had been evacuated on September 2. If the Hindenburg Dam were badly broken, it would inconvenience German supplies to the island.

The state game department of the state of Idaho uses airplanes to drop salt over the countryside in the winter, to keep deer and elk healthy.

The ready written answer usually resembles a night telegram — it doesn't arrive until tomorrow morning.

Eighty of the 91 known elements in the world were discovered within the last 200 years.

**Build WALLS AND CEILINGS ON A Safety Basis**

**GYPROC FIREPROOF WALLBOARD**

Get Genuine Gyproc—Identify it these two ways:

1. Look for the name GYPROC on the back of every board.
2. Look for the Green Lines on both side edges. (Except on sub-strips.)

In choosing a wallboard, whether for walls and ceilings of a new building, or for renovations, alterations and repairs, it will pay you to consider these outstanding reasons why Gyproc is superior to ordinary wallboards:

- FIREPROOF—therefore safe
- PERMANENT AND DURABLE—therefore economical
- WILL NOT CRACK, WARP, SHRINK or SWELL
- INVISIBLE JOINTS—panel strips are unnecessary
- SMOOTH, DUST-FREE SURFACES—easy to keep clean
- TAKES ANY TYPE OF DECORATION—no monotony
- The LIGHTEST WEIGHT gypsum wallboard made in Canada

Gyproc is sold everywhere in Canada. See your local Dealer in Lumber and Builders' Supplies.

#### Many Women Employed

Members Have Increased Greatly In England Since Last War

Before the Great War, there were only 35 women to every 100 men employed in England. In 1918, female workers had picked up so many jobs left by soldiers that the ratio had risen to 56 women per 100 men. Last year, England had 42 women for every 100 men workers.

It is estimated that when the war gets into full swing and men now in factories are called to the colors, there will be 85 women for every 100 men working in England. Of the 22,638,000 jobs, 10,449,000 will be filled by female workers.

#### In Use For Century

In drilling a salt well near Centerville, Pa., in 1840, John Criswell struck natural gas at a depth of 700 feet. This marked the beginning of the use of natural gas for industrial purposes in the United States.

Something new on the market is an ordinary cough drop whose centre consists of liquid cough medicine.

Most sprinters run the 100-yard dash without breathing.

#### Flying Motorcycle

Can Take Off In Small Space And Hover Almost Motionless

A secretly developed "flying motorcycle" plane which can take off in cramped space with lightning speed and then hover almost motionless in the air was tested for the United States army.

Robert Kerlinger, test pilot, took the manufacturing company's YP-51 on a runway, gunned the 420-horsepower engine and the craft charged almost straight up in the air and, at a respectable height, hovered virtually motionless.

Hardly more than 50 feet was required for the takeoff of the high-winged, slender-fuselage monoplane. Wolfe said the new craft was virtually a "flying motorcycle" designed for use behind the lines in infantry liaison as a courier delivering messages or co-ordinating troop movements.

The ship came down at an angle almost as precipitous as its takeoff. It almost stood still once the wheels touched ground.

Winston Churchill is one statesman who can roll a threat, a warning and an appeal all into the same sentence.

# First Division Of Canada's Aerial Force Arrives In Britain

At a Port in Northwest England—The aerial co-operation arm of the Canadian Active Service Force's first division landed in England Sunday morning singing "We've Got a Lovely War to Win."

The squadron was the 110th army co-operation squadron of the Royal Canadian Air Force. A number of Regina men, former members of Squadron No. 120, are believed to be with the squadron.

This complete army co-operation squadron of a few hundred men, advance guards of the thousands to come once the Empire Air Training Scheme is given the gun, had an unworldly Atlantic crossing under the protection of naval guns. The weather treated them roughly but the way across, but did not affect their spirits and they sang themselves as vigorously off the ship that they surprised the citizens grouped on the quay.

Since the landing was as secret as the departure from home, civilians were held at a distance from the dock. However, they soon recognized the Canadian voices and there were cries of, "It's more Canucks," and "God bless them."

They marched directly on to their train for their trip to a training base in the south of England. The base is less than an hour by air from the Aldershot training camp of the First Division of which they will be a component part of the eyes.

A few weeks of pushing up will see the squadron ready for active service. The men have been training as a unit at Ottawa since mid-December.

Before the blue columns started marching from the ship, Captain Balfour handed Squadron Leader Van Vliet this message from the air secretary, Sir Kingsley Wood:

"You and those of your fellows who are to come after are heirs to that great tradition which your predecessors created in 1914-18 and this

high trust will, we know, be safe in your hands."

As they formed ranks along the dock, the men's rollicking songs rolled from the sea mist and brought to the port on the run. One song, entitled, "Wait Till We Get Them Up in the Air," promised that the "R.C.A.F. is ready for fighting, rain or shine." The other about the "lovely war" is the squadron hymn written by a flying officer of the unit, W. G. Middleboro, of Owen Sound, Ont.

It pays anything but compliments to the "medieval tyrant living in the world to-day."

Squadron Leader Van Vliet said on landing that "what is expected of us we know we can do," and told newsmen Sunday night, "we are proud to be the first squadron to come overseas."

As he described the makeup of the squadron—the fact that the men come from coast to coast and that 146 towns, cities and villages are represented from every province of the Dominion—he added: "The boys are all very keen. About 20 per cent of them are French-speaking Canadians, and they are especially anxious to get to France."

Van Vliet, 36, who comes from Winnipeg, is a former hockey and rugby player. Some of the ground staff men went through the first Great War, he said, but only one of the pilots saw service then.

"We had an uneventful voyage across the Atlantic," he said. "We did not see U-boats or anything like that, but we had a thrill Saturday when a Sunderland flying boat off the coastal command met us. All the boys cheered the machine."

The pilot who saw service in the last war is Flight-Lieut. A. C. Heaven, one of the three flight commanders of the squadron. He served with the Royal Air Force until 1925, and recently has been a pilot for the Ontario provincial air force.

## Norway Loses Ships

Losses Since Start of War Totalled 49 Vessels

Oslo.—It was announced in Oslo that Norwegian shipping losses since the start of the war totalled 49 vessels aggregating 168,527 tons. The compilation showed 327 Norwegian seamen were killed.

Survivors of the steamer Sram, from Stockholm, reported their ship was torpedoed on Feb. 1 off the east coast of Scotland. The captain was killed and eight of the crew of 21 were reported lost. The survivors arrived in Norway after being picked up by a trawler.

A Dutch steam trawler known as the "Petten Ym-49", a craft of 250 tons, struck a mine and sank in the North sea. Reports said that the crew was saved by the Dutch trawler "Viking Bank".

The Norwegian freighter Telnes, 1,694 tons, was reported almost a month overdue on a voyage from New York to a European port. Shipping circles believed she was lost.

The 4,760-ton Netherlands freighter Tara sank 60 miles southwest of Cape Finisterre, France, after an unexplained explosion. Her crew of 34 was rescued.

The 8,971-ton Netherlands motor tanker Den Haag was sunk by an explosion Feb. 15 while en route to a New York-to-Rotterdam voyage and 26 of her crew still were missing.

Her owners announced that one boatload of survivors, the captain and 12 seamen, was picked up by a British ship after drifting for 75 hours.

## Deleted By Censors

Hore-Belisha's Plea For Finnish Aid Was Not Printed

London.—Prime Minister Chamberlain told the House of Commons today why the government censored a newspaper article by former war secretary Leslie Hore-Belisha, ousted in the cabinet shakeup early this year.

A part of Mr. Hore-Belisha's article demanding immediate British assistance for Finland was deleted, the prime minister said, because Mr. Hore-Belisha "was so recently a member of the war cabinet that . . . his views might well be regarded as having special authority."

Mr. Chamberlain said that Foreign Minister Viscount Halifax asked for alterations "which did not appeal to Mr. Hore-Belisha."

A member's request to have the deleted passages, totalling 44 lines, placed in the House of Commons library was declined. The article appeared in a Sunday issue of News of the World.

## Seize Russian Freighter

Reported British Warship Halts Cargo Off Ore From Manila

Tokyo.—The newspaper Asahi Shimbun reported a British warship had seized the Soviet freighter Selenga, 2,492 tons, with a cargo of 1,000 tons of tungsten ore from Manila en route to Vladivostok.

The British believe the ore is part of the supply Germany obtained from the Chinese government under a barter agreement concluded before the outbreak of war, the newspaper said.

The newspaper interpreted the incident as indicating a sign of stiffening British policy toward Soviet Russia.

## Money For Finns

New York.—A total of \$300,000 raised within a week to buy armaments for Finland was turned over to the Finnish minister at Washington by Major-General John O'Han, national chairman of the fighting funds for Finland, Inc. O'Han said response to the campaign to raise \$100,000,000 for Finland's military defences was "almost instantaneous."

## RED LEADER

Now in command of operations on the Russian side of the Karelian front in Finland, General B. H. Shaposhnikov is reported to have been ordered by Dictator Josef Stalin to bring the Finnish war to an early and victorious end—regardless of losses.

## Contraband Control

Suggested That War Supply Shipments From U.S. Are Going To Germany

London.—Suggestions the British contraband control is failing to halt shipment of war supplies from the United States to Germany through neutral countries were made in the House of Commons, along with filing of requests for answers by the government.

Disclosures of Soviet Russian purchases of war materials in United States prompted Liberal member Geoffrey Mander to ask Ronald H. Cross, minister of economic warfare, to state whether he had any doubts about large shipments of tin from United States to Vladivostok. Mr. Mander asked whether, "in view of the fact no such shipments were made before the war, he was in a position to assure the house the metal was not being re-exported to Germany."

Major-General Sir Alfred Knox, Conservative, asked Mr. Cross to say if he was "aware" that in the last four months of 1939 American exports to 13 European neutrals rose in value from about \$140,000,000 to about \$208,000,000 compared to the similar period of 1938, while at the same time the value of American exports to Britain increased only from about \$240,000,000 to about \$268,000,000.

Sir Alfred asked what steps Mr. Cross proposed to take about the matter.

## World Wheat Summary

Enhancing Prospects For Disposal Of Our Wheat Surplus

Ottawa.—The Dominion bureau of statistics said in its monthly world wheat situation summary that "despite the unprecedented world surplus of wheat this season, the distribution of unsold surpluses among exporting countries is such that during the next several months Australia alone is likely to come into serious export competition with Canada."

"This altered supply situation in other normally exporting countries is enhancing prospects for disposal of the Canadian wheat surplus, and in this connection the news just at hand that the British ministry of food has advised millers to use in their mix a proportion of 60 per cent. 'Manitoba' is pertinent," the summary said.

# Finnish Army Is Making Strong Stand Against Red Invaders

Helsinki.—The Russian army thrust forward at several points along a jagged 30-mile front in an intensified drive through the western half of the Mannerheim line, but at tremendous cost, losing nearly 5,000 killed in a single day's combat.

The Russian penetration at one point reached to within 10 to 12 miles of Viipuri (Viborg)—to the vicinity of Naykiki lake, roughly four miles northwest of the Kamara railway stations, where fighting began Thursday, according to Finnish communiques.

The Russian dead, said the communiques, approximated two battalions—about 2,000 men—in one sector and 800 in another.

The widened front and the indication of the slight Soviet advance toward Viipuri, together with the fact that the Finns acknowledged by the Finns, might seem to present a highly serious picture for the defenders, but there were several additional factors weighing strongly in their favor, observers said.

These are: The Finnish army is making the most of its man-made fortifications, aided by deep gullies between forested plateaus and along ice-crusted lakes through which a large army can penetrate only slowly. The Finnish retreat from frontal positions was calculated to save men.

The Russians have advanced only a few miles against the Mannerheim line, although their concentrated drive already is 23 days old and the Finns mentioned fighting in the Summa sector as far back as January 22.

Should the Russians penetrate the Finnish line and capture Viipuri, the Russian army would gain a considerable advantage, but to reach Helsinki it would still have to drive through natural barriers of lakes by the hundreds and through a series of well-laid military fortifications.

The Finns are receiving some

foreign help, although not as yet the quantity of planes and armor they would like. But there always is the prospect that great quantities of either or both would change the picture quickly.

A proclamation welcoming Swedish volunteers to the Finnish army in what he described as a war "to defend the liberty of the north" was issued by Field-Marshal Baron Mannerheim.

The order of the day, counter-signed by Lieut-General Lennart Oesch, chief of the Finnish general staff, said:

"On a number of battlefields the Swedes and Finns have fought shoulder to shoulder for the religion of their ancestors, for their secular culture and for Nordic juridical order."

"To you faithful men of Sweden, who have left your homes and relatives to share the dangers of war with us, I express the thanks of the Finnish people for your aid."

## Supplies To Finland

Britain Is Sending Vast Quantities Of Fighting Material

London.—The British government has released vast quantities of military supplies to Finland, including 144 planes, both fighters and bombers, it became known here.

In addition to the supplies being sent by France to Finland, Britain is sending 150 anti-tank rifles and ammunition, 10,000 anti-tank mines, 50,000 hand grenades, 25 howitzers and ammunition, 100 machine guns and ammunition, 24 anti-aircraft guns and ammunition, 30 field guns and ammunition, four six-ton tanks, 12 six-inch guns, and 10 three-inch mortars.

Britain is also sending the Finns a vast quantity of small arms ammunition and military equipment such as field telephones and anti-gas supplies.

# Allied Governments May Extend Naval Blockade To Black Sea

London.—The Allied governments were reported studying measures to extend their naval blockade to cover Russian oil shipments across the Black Sea to Roumania, en route to Germany.

According to unconfirmed reports current here, London and Paris are considering possibility of contraband control in the Black Sea, presumably with the assent of Turkey.

Despatches from the Roumanian Black sea port of Constanta said a number of Soviet tankers had arrived there with oil for Germany. The oil reportedly is being stored in tanks leased from the United States-owned Standard Oil Company until the Danube thaws. It then will be trans-shipped to the Reich in river tankers, it was said.

It was learned the British and French ministries of economic warfare entered into immediate consultation on receipt of the Constanta despatch. Informal quarters said they intended to make a complete study of Russian supplies being furnished to Germany before taking any definite steps.

Observers pointed out there was no reason why the Allied contraband

control system could not be operated in the Black sea on the same basis as in other waters. They added that measures to this effect undoubtedly would eventually be taken. It was admitted control in the Black sea would be difficult but despite the ill-feelings that might be aroused in Moscow the rights of belligerents, diplomatic observers pointed out, permit seizure of contraband in the Black sea just as in other parts of the world.

Press reports from Paris said that mass arrests had been made in Georgia and Armenia near the vital pipelines through which oil from the rich Russian fields around Saku reaches ports on the Black sea.

Russia was reported in the despatches to be concentrating troops in the Caucasus, and at the same time directing a violent "fate campaign" against Iran and Turkey by radio.

Other reports said that Russia was preparing to propose to Turkey the reopening of Russian-Turkish conversations.

The Turkish government, speeding measures to put the nation on a war footing as quickly as possible, has decided to group all exporters and importers into control syndicates.

Prices will be controlled by government order. The syndicates are to be charged with responsibility for accumulating stocks of raw materials and manufactured products to assure adequate supplies for national defence and the civilian population.

Roumania, showing increasing concern over the possibility of war in the spring, has increased her defence forces and published a decree banning export of certain raw materials and manufactured goods "necessary for the national defence."

Oil and wheat—Roumania's chief exports—were left out of the decree although it was confirmed authoritatively that delivery abroad of aviation gasoline and lubricants has been banned.

It was learned large internal purchases of commodities in which Roumania is deficient—mainly by Germany—and delay in acquiring new stocks led to the decree.

## Air Force Pay Rates

Following Have Been Effective In Canada For Some Time

Ottawa.—An air commodore on the general list of the Royal Canadian Air Force receives pay and allowances totalling \$19 a day. The rates have been in effect for some time.

An air commodore on the non-flying list receives \$17 a day.

Daily pay for officers in various ranks on the general list follows: Group captain, \$15; wing commander, \$32; squadron leader, \$20; flight lieutenant, \$5.50; flying officer, \$7; pilot officer, \$6.25. Officers holding these various ranks on the non-flying list all receive \$2 less.

Daily rates of pay for warrant officers, non-commissioned officers and airmen are: Warrant officer, class one, \$4.20; warrant officer, class two, \$3.10; flight sergeant, \$2.50; sergeant, \$2.20; corporal, \$1.70; leading airman, \$1.50; airman, class one, \$1.40; airman, class two, \$1.30; aircraft apprentice, \$1; boy, 70 cents.

## University Sole Legate

Montreal.—The University of Montreal is the sole legate of the \$310,000 estate of Aristide Casavant, son of an organ manufacturer of St. Hyacinthe, Que. Mr. Casavant died in 1938.

# Germany Protests Roumanian Ban On Oil Products To Reich

Eucharest.—Roumania ordered her already large military preparations speeded up following authoritative reports that Germany is challenging the governments' ban on export of aviation gasoline to the Reich.

Dr. Karl Clodius, German economic expert, is expected here to insist on full delivery of Germany's 1940 quota of oil and oil products.

The government ordered many of 200,000 reestrivers originally called for March 1 to start reporting immediately to concentration centres.

Effective March 1, Roumania will have 1,600,000 men under arms—virtually general mobilization without being so labelled.

Railways now are jammed with reservists moving toward frontiers and with long trainloads of tanks, armored cars and artillery.

## Tribute To Britain

Arab Newspaper Emphasizes Iraq's Ties To British Empire

Baghdad.—The Arabic newspaper Swastah, Shah strongly emphasized Iraq's ties to the British Empire in an editorial.

Paying tribute to the British attitude toward small nations, the newspaper said that Great Britain and Iraq were guided by identical principles. "The Arabs," it remarked, "are democratic by instinct, while democracy is the foundation on which the British Empire stands."

The paper said that German propaganda was being carried on in Arab countries to alienate the Moslem world from Britain.

## German Spies

London.—The House of Commons was informed the government does not plan to reveal further data on the activity of German spies in Britain before the war, or the number who were expelled from the country.

## A Polish Protest

Paris.—The Polish government in exile delivered a note to the French government charging that Russia is preparing to force Poles into military service in violation of international law. A similar note was delivered in London.

The arrival of Dr. Clodius will coincide with the start of Roumanian trade conversations here with Italy, understood also to be seeking a share of this country's oil exports.

Germany, it was said, will challenge a Roumanian ban on shipments of highest aviation gasoline to the Reich—a measure which Roumania was reported to have taken on insistence of Great Britain and France.

The German attitude toward Roumania and all southeastern Europe will depend on the outcome of Clodius' talks.

It was understood a government decree banning the fuel which Germany needs for her machines of war had been issued in this apparent contradiction to a recent oil export agreement with Germany. 2348

FOUR SMILING BROTHERS WITH CANADIAN ARMY IN ENGLAND

When the third contingent of Canadian troops landed on English soil there were among them four smiling brothers from the wheatlands of the West. They are members of the Barnes family of Indian Head, and all left their home together to enlist. Here they are: E. A. Barnes; W. Barnes; S. J. Barnes and G. H. Barnes. The quartette is in the same regiment.

Wm. Cole, proprietor of Cole's Theatres, purchased last week the Natal theatre and has placed it under the management of his cousin, Wm. Cole, of Michel.

## THE COLEMAN JOURNAL

Published Every Thursday at Coleman, Alberta. Membership in Canadian Weekly Newspapers Association and Alberta Div. C.W.N.A. H. T. Halliwell, Proprietor.

### NOTES AND COMMENTS

NOW that this mining area has been linked up with the agricultural area as far east as Pincher Creek, taking in the North Fork and other fine districts, to form the provincial constituency of Pincher Creek-Crows Nest, it occurs to the writer that a closer bond of friendship might well be developed. It is refreshing to meet the people of the wide open spaces, to get the free and easy air of the ranch and the farm, to talk of crops and cattle. After all, we depend on the farming section for our provisions, and as our correspondent from North Fork writes in his article this week, time was when the farmers east were frequent visitors to The Pass before cumbersome license restrictions were imposed. Another thought comes to mind, and that is if Coleman is made a more attractive place for the people of the adjacent prairies to visit and spend an hour or two, it would be to the good.

MAYOR D'Appolonia has drawn up a list of useful suggestions for the council to work on, which will entail responsibility of a little heavier nature than has heretofore been the rule for the committees. Evidently he believes that to keep people interested, they must have a share of responsibility, and this should result in benefit to the town at large. He recommends that each committee, if at all possible, present at the next council meeting an estimate of all fixed expense and disbursements that the town will be called on to meet this year, so that estimates of cost of repairs, improvements, etc., may be dealt with accordingly. Also he adds: Ratepayers are carrying a very heavy load and I recommend that all committees study each problem very carefully so that the tax revenue may be spent to the best interests and prestige of the town. Co-operation with the school board on problems that may arise, for the benefit of ratepayers in general, is recommended by the mayor in his accompanying letter of suggestions to councillors.

It should not be necessary to emphasize the importance of the railroads to the Crows Nest Pass, yet there are some who fail to appreciate the benefits to trade derived from steady operation of the mines, and instead of bringing in freight shipments by rail, use trucking companies. Mineworkers themselves could quickly make their feelings known in this respect. One would think that reciprocity would be spontaneous on the part of every business man to use the railroads. The slogan—"We dig coal, not gasoline," needs to be kept continually to the fore. It applies to the retailers of the Pass towns as well as the workers.

THE franchise is given to all Canadian citizens, men and women, to enable them to have a voice in selecting which party will represent them in the legislature or the Federal parliament. It is a duty which loyal citizens will observe. Occasionally you hear a person say he will not bother to vote, yet later he may condemn the government in power. A government reflects the type of people whom it represents. Unfortunately in 1935 that reflection, judged by the result of the voting and the record of the provincial govern-

ment since then, was not one to be proud of, in fact Albertans were regarded as a strange group by the other provinces. The provincial government was elected with 54 per cent of the voting power of the province. With the momentum of the Independent movement, indications are that the latter will wipe out that majority and the next provincial government will be formed from the candidates now running under a united front.

HUEY LONG's political machine in Louisiana goes to scrapheap, states a headline. Maybe another political machine near home is bound for the same place.

### European Notes of General Interest

Professor W. J. Rose Tells of Alarming Conditions Among Europeans as Result of Present War

From Professor W. J. Rose, director of the School of Slavonic Studies in the University of London, Eng., the following extracts of letters are given to The Journal through the courtesy of Dr. C. Rose. Professor Rose was awarded a Rhodes scholarship, and received his Master's degree at Oxford University in 1912, following which he studied in Germany, and spent the entire period of the Great War in Central Europe. He received the degree of Doctor of Philosophy from the University of Cracow in 1926, being the only Anglo-Saxon to ever receive a degree from the second oldest European university.

Bucharest, Nov. 12-39.

Dear Brother:

I arrived here ten days ago. Three days trip from London, plane to Paris, then comfortable sleeper in Simplon Express. Found old Y.M.C.A. men at work and have been steadily gaining impression as to how the refugees are living. Found yesterday two oldest Cracow friends, after solemn service in Catholic Cathedral, former university professor and his sister, without a penny. They did most of the way on foot from Cracow to Zaleszyk; a fearful experience, bombed by Germans all the way, seeing people killed around them every day. Twenty thousand such are scattered here in Roumania, and still more interned men in uniform. There people are bullied by Nazis at every turn. It passes belief what these fellows plan and do. The suffering and misery and death under Nazi rule passes description.

### Salvation Army Red Shield Drive

FOR YOUR INFORMATION

The National Red Shield appeal of the Salvation Army, for its war and home service work, will begin on March 11.

With a view to giving Pass citizens first-hand information as to what is done with the money raised, the following is given:

1. Sixty per cent of the total for war work at Canadian training centres, and with Canadian troops in England and on the battlefield.
2. Forty per cent in the various branches of home service which were formerly financed by the harvest festival and semi-dental appeals.
3. The comforts, knitted or made by the Red Shield Women's Auxiliary, will be carefully distributed here, and amongst Canadian troops overseas.

[This space is donated to the Salvation Army Campaign Fund]

### OF INTEREST TO THE LADIES

Mrs. Kennedy, of Macleod, is visiting her brother, Mr. Tom Clarke, and Mrs. Clarke.

Miss Elsie D'Appolonia underwent an appendicitis operation on Sunday and is now rapidly recovering.

Mr. George Duffield sr. returned from Calgary on Monday where he was a business visitor for a few days.

Miss Mary Kille spent the week-end at Hillcrest, the guest of her parents, Mr. and Mrs. Dan Kille.

Mr. George Kellock left Lethbridge on Monday evening via T.C.A. plane for Montreal, and expects to remain away for a week on business.

Remember the Salvation Army tea and pantry sale on Saturday next.

Miss Olga D'Appolonia left on Tuesday for Calgary where she entered Holy Cross hospital as a nurse in training.

Mrs. A. Dewar entertained a number of friends on Tuesday and Wednesday evenings. Prize winners on Tuesday were Mrs. J. Kinnear, Mrs. E. V. Wood and consolation Mrs. A. Anderson.

Mrs. George Kellock entertained at bridge from 2 to 6 o'clock on Tuesday. The honors for the afternoon going to Mrs. Gordon Nurcombe, Mrs. John McDonald, Carbondale, and Mrs. McDonald.

Mrs. J. J. McIntyre, who went to Bridgeport, N.S. about a month ago, will return after the funeral of her mother, whose death occurred on Wednesday morning.

Word was received Saturday evening by Mr. and Mrs. Wm. Roughhead of the marriage of their daughter, Mary, to Mr. John Morris, of Princeton. B.C. The couple will reside in Princeton where the groom is employed.

The Italian Society gave a surprise party in the Italian hall on Sunday night in honor of Mayor John D'Appolonia and Councilor Angelo Gentile complimentary to their victories in the recent municipal elections. Officers of the society congratulated them on their success which was appropriately replied to by the guests of the evening.

## FIVE YEARS OF BROKEN PROMISES and Increased Taxes!

"Increased Purchasing Power" was Aberhart's promise in 1935!

Purchasing Power has been decreased by Millions of Dollars. Taxes, Licenses, Fees since 1935 have been increased—

|                |                     |
|----------------|---------------------|
| Taxes .....    | \$3,288,840.67 more |
| Licenses ..... | 660,717.04 more     |
| Fees .....     | 851,319.35 more     |

Social Service Tax increased 50%. Car Drivers pay anywhere from \$1 to \$5 more. If you are a tradesman you must pay a license for the right to work.

In 1935, Taxes, Licenses and Fees were \$11.44 per capita. In 1939 they were \$17.24.

They tried to put a tax of 7% on all farm production; but the Courts killed this Act.

But the Social Credit Government Paid Itself \$2,000.00 for 7 Days' Work.

## Snapshots From The North Fork

Rancher-Writer Expresses the  
Rural Point of View in New  
Constituency Line-Up and Other  
Matters

After our hired help at Edmonton got through operating on the boundaries of our constituency and we of the old Pincher Creek end found that a lot of our old friends on the east and south ends had been parcelled about like a bunch of orphans, presumably so that they could be absorbed in constituencies where they would be less harmful to the cause, we sure felt sort of low in spirit hereabouts.

But when we received the news that we had been joined up with our old friends of the Crows Nest Pass, we surely perked up a bit, because even with the advice of imported "experts," sometimes mistakes are made, for our hired help evidently didn't know that a real honest-to-God community of interest used to exist between we of the agricultural end and our industrial friends to the west, which only needed a dictatorial edict such as this to revive the old community of interest and from all accounts this interest won't be halved by any fountain pen theorist, and from the start it has got, will upset the present legislative pork barrel.

In the old days we used to be able to dispose of our surplus farm products to our mining friends without any interference, but since our paid servants have felt it their duty to apply licenses, regulations and what have you, what used to be good fresh cackles right off the farm at reasonable prices are in grave danger of being the throwing product at a fancy price, before the good housewife gets an opportunity of cracking them into the pan.

Why, our representatives even asked us to endorse a scheme of production tax, which was enthusiastically enacted by our misdirected hired help up at the capital city, which, when coupled with a so-called marketing act, which would have told us how, when and where to sell our stuff which embodied regimentation even our alleged 13-year-old mentality could see through.

Consequently, we were sure

glad to have had the opportunity of being at the big gathering which nominated our old friend Tompkins, although we had to engineer the family bus through a lot of snow to get there, and now that we have put our shoulders to the wheel, let's all push as hard as we can and shove our old province out of the financial bog-hole that our

Utopian preaching lawmakers have got us into during the all too long past four and a half years.—W.R.C.

Dan McLellan, who received a serious leg injury on Dec. 5, was released from hospital on Wednesday. He has to rely on the aid of crutches but his wound is rapidly healing and he will soon be completely recovered;

Johnny Sneddon ran a pic into his foot while at his work at McGillivray pit head, which necessitated him losing several days work.

## WORLD HAPPENINGS BRIEFLY TOLD

Ljuba Davidovitch, 77, twice premier of Yugoslavia and last of pre-war Serbia's statesmen who participated in the creation of Yugoslavia, is dead.

The King conferred the Order of Companion of the Bath on Captain L. S. Bell of the British cruiser Exeter for bravery in action against the enemy.

The national defence department, in a statement to the press, placed the total of men on active service for Canada at 90,000. This figure includes the military, naval and air forces.

One person was killed and 17 injured by a bomb hurled at a Mohammedan procession in Karachi, India. Authorities proclaimed a curfew as a safeguard against further disturbances.

Letters from Europe to Canadian headquarters of the Girl Guides Association tell of one Polish Girl Guide patrol on first aid work wiped out by a bomb during the German invasion.

In an agreement with Great Britain and Turkey, the French government has registered the mutual assistance pact of the three powers with the League of Nations. The pact was signed at Ankara last October.

The agricultural department reported that reduced egg production in European countries due to cold weather and shortage of feed supplies has brought a demand for Canadian eggs for export to the United Kingdom.

Canadian Boy Scouts saved the lives of at least 150 persons in the last five years, the medal board of the Boy Scouts Association revealed after a survey of its records. The heroes in practically all these cases were recognized and honored.

### Low In Vitality

Soybean Seed Over Four Years Old Not Fit To Sow

Investigations into the effect of age on the vitality of soybean seed are reported in the December issue of Scientific Agriculture, edited by the Canadian Society of Technical Agriculturists. If soybean seed is not more than three years old, it will germinate satisfactorily, although there is a slight advantage in favour of new seed. Four-year-old seed showed considerable weakness, while seed older than that was so low in vitality as to be unfit for sowing. The few plants that grew from 5- and 6-year-old seed were weak and slow in coming up. Eight-year-old seed failed to produce a single plant.

### Special Medal Struck

To Celebrate British Victory Over Germany's Admiral Graf Spee

A special medal is being struck at the King's suggestion to celebrate the victory over the pocket battleship Admiral Graf Spee. It will be awarded to all officers and men of the cruisers Ajax, Exeter and Achilles, which took part in the battle off the River Plata. The next-of-kin will receive the medals of men killed in the action.

### Less Wheat Shipped

General War Conditions Blamed For Decline On Pacific Coast

Scarcity of shipping on the Pacific was reflected in figures issued by the Vancouver Merchants' Exchange showing grain shipments from that port between Aug. 1, 1939, and last January 31 totalled only 6,448,630 bushels.

"General war conditions" were blamed for the decline.

## FOR WOMEN ONLY!

If elderly, nervous, restless night and day from female functional "irregularities" keep you from having fun in life—take Lydia E. Pinkham's Vegetable Compound, made especially to help such run-down, weak, ailing women. Try it.

### Makes A Good Story

Engineer Tells Why His Clock Stopped Regularly Every Morning

Charles T. Beeching, a mechanical engineer of Rome, N.Y., and a member of Boston's famous Clock Club, rehabilitated an old grandfather's clock for use in his living room. It clock for use in his living room. It clock for use in his living room.

His mechanical curiosity thoroughly aroused, Beeching finally moved his bed into the living room and rigged up a buzzer that would awaken him if the clock stopped. Promptly at 3:10 the first night the buzzer buzzed, and Beeching leaped to turn on the lights. Standing with its head inside the clock, was the family cat, which had arisen from its cushion around 3, clawed open the clock door, reached in with a paw, and stopped the pendulum, then returned solemnly to its cushion. The only question now bothering Beeching is how the cat learned to tell time.

### Finding Names For Ships

British Admiralty Has Another Problem On Its Hands

Apart from actual conduct of the war at sea, the Admiralty has another problem—finding suitable names for the large number of vessels being constructed for conveying merchantmen, minesweepers and hunting submarines. The job nominally belongs to the First Lord, but because he is too busy it is generally delegated.

Various officers chose the names during the last war. The first 50 sloops were named after flowers in the garden of the Acting Admiralty Librarian and have been called the "herbaceous border" ever since.

As far as possible the names are chosen so that ships of the same type have names from the same group—seaside towns, race horses, naval heroes. Traditional navy names are divided among the heavier types of warship. The Admiralty is hampered in bestowing these "traditional" names by an order providing that names which entered the Navy List through capture from the French in wars of a century ago should be omitted. Often, a prize was added to the fleet with her name unaltered as a tribute to the resistance of her crew.

### Is Proving Profitable

Finland Paying Large Sum In Interest On U.S. Loan

This letter appeared in the New York Times: Recent statistics given of the slow progress made by Finland in liquidating its 1923 debt to the United States—the inevitable consequence of the terms of interest—have brought a number of letters asking how long it will take Finland to pay it all.

If this splendid people continues, as invariably in the past, to meet its obligation, payment will require only more years, ending in 1994. By that time on a funded debt of \$9,000,000 they will have paid us a total of \$21,695,055, of which \$12,695,055 will represent interest. Thus far Finland has remitted nearly \$5,000,000 in interests on its debt of \$9,000,000 and still owes more than \$8,000,000.—A.K. Washington, January 30, 1940.

Hawaiian lobsters have been found 12,000 miles away along the coast of South Africa. First known only around the Hawaiian Islands, the migrating species has already half circled the globe.

Snowshoes are one of the most important factors in the development of the Far North.

There are 1,600 different varieties of apples known to experts.

### Contributed To Aviation

Man Who Built First Controllable Helicopter Is Dead

The death in Boston of Dr. George de Bothezat at the age of 56 recalls to those interested in aviation that he was the man who built for the army service corps in 1922 the first helicopter in the world to make sustained flights that were stable and controllable.

Dr. de Bothezat built the first successful helicopter, but he died without realizing his lifelong dream of seeing vertically-raised aircraft bring flying fields from outlying airports, with long and broad take-off areas, to the backyards and house-tops. When he became ill last fall he was about to test his latest helicopter model, a tiny, one-place helicopter built in secret in New York, the performance of which he was certain would make helicopters as common as conventional airplanes.

After seeing in operation Dr. de Bothezat's original helicopter, a huge affair weighing more than 3,500 pounds, the late Thomas A. Edison wrote enthusiastically: "You certainly have made a great advance. I can see where, if you keep on, you will make it practical and commercial."

As an exponent of pure and applied science, he won fame as teacher and inventor here and abroad; he invented a blower used to-day in ventilating systems of many skyscrapers, he once engaged in a sensational scientific debate with Dr. Albert Einstein, in the role of mathematical physicist, but his chief claim to fame was in the field of aviation.

—Buffalo Courier-Express.

### Started At Early Age

Fourteen-Year-Old London Boy Was World's Youngest Pilot

Five years ago 14-year-old Ovid Otlet, of North London, created a sensation by flying solo after only five hours' tuition. He was the world's youngest pilot.

Questions were asked in the House as there was no legislation against children flying within three miles of an airfield. As a result an act was passed prohibiting anyone under 17 years of age from flying solo.

So Ovid had to be content with using a glider.

Now he's 19 and is waiting with wings up for his call to the flying force.—London Correspondent.

### SLIM BECOMING PRINTED ENSEMBLE

By Anne Adams

Most important forecast of spring style is the "costume look." Printed jacket-dresses will bloom everywhere. Slit up the Anne Adams Pattern 4377, say in soft, flower-sprayed crepe (white or yellow on grey is smart), and use the Sewing Instructor to hurry your need. The dress itself is designed to soften and slenderize. See how the gored front skirt makes you seem taller and narrower. Darts above the waistline and at the shoulders hold in softness through the bodice. And the V-neck, with either revers or a bow or just lace edging, is very youthful. The boy jacket is so becoming to your figure!

Pattern 4377 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, entire ensemble takes 5½ yards 36 inches fabric. Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly size, name, address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

**HOME SERVICE**

EASY TO PAINT THIS PICTURE IN RICH COLOR ON GLASS

Colorful pictures on glass—what distinction they lend to your walls! And you can paint such pictures easily. Your design is printed on paper by which you put under the glass, then you follow the design as you paint.

The "Yankee Clipper" shown here is 9 by 12 inches in size, just right for framing. And to make a gorgeous color picture of it—to paint other lovely subjects such as old-fashioned flowers, tropical birds—you need only a few inexpensive materials.

Three small tubes of oil paints—red, blue and yellow—make any color you want. A touch of black household enamel darkens a color, a little white household enamel lightens it, and a simple color chart shows how to mix your paints. Imagine how striking the "Yankee Clipper" will look with the ocean, a rich dark blue-green, the heavens sky blue, the ship a dark brown—and at the horizon red-orange sunset glow.

For a colorful backing, which will show through unpainted parts of the glass, use metallic or bright-tinted paper. Then frame the glass with unpainted side out. Now you have a picture you are proud to hang!

Our set, "Four Designs for Painting on Glass," contains eleven "Mediterranean" designs, "Roses and Cottage Tulips," and "Tropical Birds"—each 9 by 12 inches. Includes a chart for mixing colors, tells what colors to use for each design, gives pointers on applying paints.

Send 12c in coins for your copy of "Four Designs for Painting on Glass" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

The following booklets are also available at 15 cents:

180—"What You Should Know About Nursing"

168—"Etiquette: The Correct Thing To Do"

171—"How to Plant and Care for Your Garden"

### Prairie Library Plan

Scheme Inaugurated By Lady Tweedsmuir May Be Continued

Continuation of Lady Tweedsmuir's prairie library scheme advocated in a resolution read at a meeting of the Ottawa local council of women. The resolution, which will be forwarded to the national council of women, said the national council was the logical organization to carry on the work and requested local councils of women across Canada to assume responsibility for the prairie library scheme in their localities. The scheme was inaugurated by Lady Tweedsmuir and involved collecting books and reading material to be sent to hard-hit prairie districts.

A resinous sap immediately seals up any wounds in the bark and acts as an antiseptic dressing in coniferous trees.

A master draftsman, William Morris, invented the Morris chair.

## SUNDAY SCHOOL LESSON

MARCH 3

### IN THE UPPER ROOM

Golden text: This do in remembrance of me. I Corinthians 11:24. Lesson: Matthew 26:1-30. Devotional reading: Psalm 73:24-28.

### Explanations and Comments

The Presence of the Traitor Announced, Matthew 26:25-26. While Jesus lay at table with the disciples (thus Moffatt's translation pictures the actual scene, for chairs were not in use and men reclined at table) and were partaking of the Passover feast, he made a startling announcement. Solemnly he said, "Verily I say unto you that one of you shall betray me." Sorrow, consternation, horror must have filled the hearts of the disciples as each one questioned, "Is it I, Lord?" The Greek implies negative answer, "If each one said, 'Surely it is not I!'"

Jesus answered, "One who has dipped his hand in the same dish as myself is going to betray me." (Moffatt's translation). This is my body which is given for you: this do in remembrance of me," Luke adds, 22:19. The connection between Christ and us must be of the closest possible kind; so close that the assimilation of the food we eat is not too strong a figure for the press. The food we eat becomes our blood and flesh; it becomes our life, our self.

And he took a cup, and gave thanks, and gave it to them, saying, "Drink ye all of it: for this is my blood of the covenant which is poured out for many unto remission of sins." Ex. 24:8 reads: "Behold the blood of the covenant, which I have hallowed with me, shall be poured out for you." The old covenant was the law at Sinai; the new and better covenant Jesus now instituted. "The blood is the life," the Bible says. Let this cup be a channel through which his life flows into our lives.

## Gardening

Spring may not really start with the first day of March but, regardless of the weather, the real gardener will begin his work when the ground can be done this season. Experts admit that it is possible to make some sort of a garden with a plan that is usually put in place in the fall. Many experts, however, are strongly advocates of a little planning before final operations begin. There is no doubt in the summer with the sun poured over flower beds, the sketches on paper, varieties new and old to be selected.

When we buy a packet of seeds we are literally buying a dream which will come true. Unless we buy any other purchase this is not only the beginning of our pleasure but the end of the expense. It is something that will grow into beauty or usefulness, a hundred, perhaps a thousand times more valuable than the few cents we hand over the counter. We are not buying a hundred seeds, but a bright, lithographed packet, but baskets of crisp, tender vegetables, or tall, stately plants that in the summer will transform our backyard into a riot of color and fragrance.

Sweet Peas Soon Sweet Peas must be planted early. This plant develops its extensive root growth and upper vine structure when the weather is cool. If it does not get its feet well down into the soil then, when the days turn hot, it is liable to wither and cease furnishing its daily quota of color and fragrance. Planting directions are simple but important. Successful garden advice a trench, dug at least a foot deep, filled with two inches of top soil with rich soil, mixed with well rotted manure or old leaves. Seed is planted about an inch or two deep and just as soon as the soil can be worked, Rains will wash more soil into the trench filling it up gradually and thus adding further to root growth. When the upper plant starts to develop it will be necessary to supply some climbing support. Flowers should appear by July and must be cut daily. This cutting and frequent heavy watering in hot weather will encourage full blooming and those long stems so desirable for cutting purposes.

### Great Assets In Business

Majority Of Employers Place Value On Everyday Virtues

In reply to a questionnaire as to what traits they most valued in their employees, the majority of employers in the United States have given the following answers: Honesty, integrity, inventiveness, character, ambition, neatness, loyalty to employer and co-operation—all of them possible to each of us.

India's population is expected to be 383,000,000 when the 1941 census is taken.

During the late Middle Ages 20 of the rectors of the University of Paris were Finns.

**TOPICS OF VITAL INTEREST**

by DR. J. W. S. McCULLOUGH

### EXPERIMENTS IN NUTRITION

So successful has been the experimental nutrition education at Toronto that the Board of Education has offered the Health League of Canada the use of another 16 public schools to extend the classes in choosing and using foods. The original plan called for a nutrition course to housewives in 16 city schools. Before the classes opened, applications for admission to these classes were more than three times the available accommodation.

The importance of this educational activity has been especially stressed as a war-time measure. All of the nutrition experts who gave public lectures in advance of the demonstrations showed the necessity of foregoing the home front by the judicious use of food, both for health and economy.

In proof of the part food plays in a nation's health standards, one of the lecturers, Dr. Elizabeth Chant Robertson, pointed out that in the latter part of the last war, there was a marked increase in the number of tuberculosis deaths in Denmark and Holland.

As a result of the Allies' Naval Blockade and the heavy exports to Germany, good food was scarce. When the war ended, the deaths from tuberculosis promptly dropped back to their former level.

Editorial Note: Readers desiring a complete set of Dr. McCullough's lectures on nutrition may secure same by writing to: The Health League of Canada, 165 Bond St., Toronto, Ont.

### Search For Oil

Leading Geologists In New Zealand On A Wide Scale Survey

Some of the world's leading geologists and geophysicists are in New Zealand engaged in a wide-scale survey of the possibilities of finding oil in commercial quantities. Such a discovery would improve the country's defence position and save sending money abroad to purchase oil in the East Indies and the United States.

Oil has been produced in small quantities from wells in the Taranaki district at the lower end of the North Island for years but the survey has not yet established whether commercial quantities are available there. The government has granted oil prospecting licenses on favorable terms and a number of leading United States companies are searching under direction of experts.

Surveys have been proceeding for many months at a cost of tens of thousands of dollars a month. One company had to abandon a drilling after months of patient recording of a vast bore because of the difficulty. Other companies have not yet reached the drilling stage.

Mistress (after giving orders for half an hour): "Now are any questions you would like to ask?"

New Maid: "Yesum, can I use your phone to call the depot and tell them to keep my trunk there?"
